## **Do you need to know...**

- what's ahead in oncology and how it affects your program, your practice, and your patients?
- how to prepare for changes resulting from legislative and healthcare reform?
- the steps to take to prepare for the coming ICD-10 transition?
- how to avoid an audit as part of CMS's increased crackdown on fraud and abuse?
- what the implications of Health Information Exchanges are for community cancer care?
- which plans are available and what drugs are covered in the new Insurance Marketplaces in your region?

If you answered yes to one or more of these questions, there is one more question for you:

## **Can you afford to miss this free meeting?**

*Whether you are in a hospital, a practice, or somewhere in between, this meeting is for you!*

**Are You Ready to Board the ICD-10 Train? Overview,  
Planning, and Implementation**

**James H. Leach, MBS, AHIMA ICD-10 Ambassador  
E&M Consulting, Inc.**

ICD-10 is taking effect October 1, 2014—but that doesn't mean you should wait until September 2014 to get ready. Learn how to identify differences and similarities between ICD-9 and ICD-10, use General Equivalence Mapping (GEM), plan for implementation, and what effect ICD-10 will have on current contracts. Don't let the ICD-10 train leave the station without you!

**10:15 am – 11:15 am**

**Introduction to Health Information Exchange**

**Pam Matthews, RN, MBA, CPHIMS, LFHIMSS**

**HiMSS**

(Presenting in Eugene, Oregon, and Savannah, Georgia)

**John Kansky**

**Indiana Health Information Exchange**

(Presenting in St. Louis, Missouri)

Health Information Exchanges (HIEs) promise to improve care and reduce costs to the healthcare system, as well as provide patients greater access to their health information in more locations. However, HIEs are still in their infancy, and many different types of exchanges are developing around the country. This session will review HIEs, discuss the implications for community oncology, and share the next steps in implementation.

**11:15 am – 11:30 am**

**Break in the Resource Center**

**11:30 am – 12:00 pm**

## Who We Are

### **The Association of Community Cancer Centers (ACCC)**

As a member of the Association of Community Cancer Centers (ACCC), you are part of an organization representing over 18,000 cancer care professionals from approximately 900 hospitals and more than 1,200 private practices. ACCC provides a national forum for addressing issues that affect community cancer programs. Our members include medical and radiation oncologists, surgeons, cancer program administrators and medical directors, senior hospital executives, practice managers, oncology nurses, pharmacists, radiation therapists, oncology social workers, and cancer program data managers. Members rely on ACCC to provide information on cancer program management, reimbursement issues, legislative and regulatory changes at the state and national levels, community cancer program standards, NCI-funded community clinical research, hospital alliances and physician relationships, and more.
