“Audits – The Oncology Target”
Michelle Weiss
Weiss Oncology Consulting

Description – “Insurance payors are increasing their audits with the goal of reducing or eliminating fraud, waste and abuse. Both governmental and commercial payors, including Medicare Managed Care, recover billions of dollars in refunds on an annual basis. An effective compliance program detects and eliminates coding and billing risks through an internal auditing and monitoring program. This may include an understanding of modifier application, medically unlikely edits, Medicare Local Coverage Determinations, other payor policies and other coding guidelines and regulations. This interactive session is valuable to administrators, coders and other staff involved with coding and charge capture and will review common areas of misunderstanding that may result in an audit or investigation.

2:30 – 3:00 pm
Commodore Hall

Break/Exhibits

3:00 – 4:00 pm

Brief Administrator's Association Business Session

6:30 pm -?? - Shorehouse

GASCO Welcome Party & Fiesta

Could it be our last beach party & welcome reception? It's 2012 and the Mayan Calendar is set to end in December (just think -no year end close). But we all know that ASP pricing and healthcare reform began the end of our world as we know it in 2005. Attendees, sponsors & exhibitors – grab your maracas and sombreros and you Calendar Girl/Boy - come have a great time with your family or guests and let off some steam with Mexican food, Margaritas, music, dancing and karaoke!

AND BY POPULAR DEMAND: THE FLYING PIG IMMUNITY IDOL RETURNS!
